

# ITKv4 Modularization

December - 2010

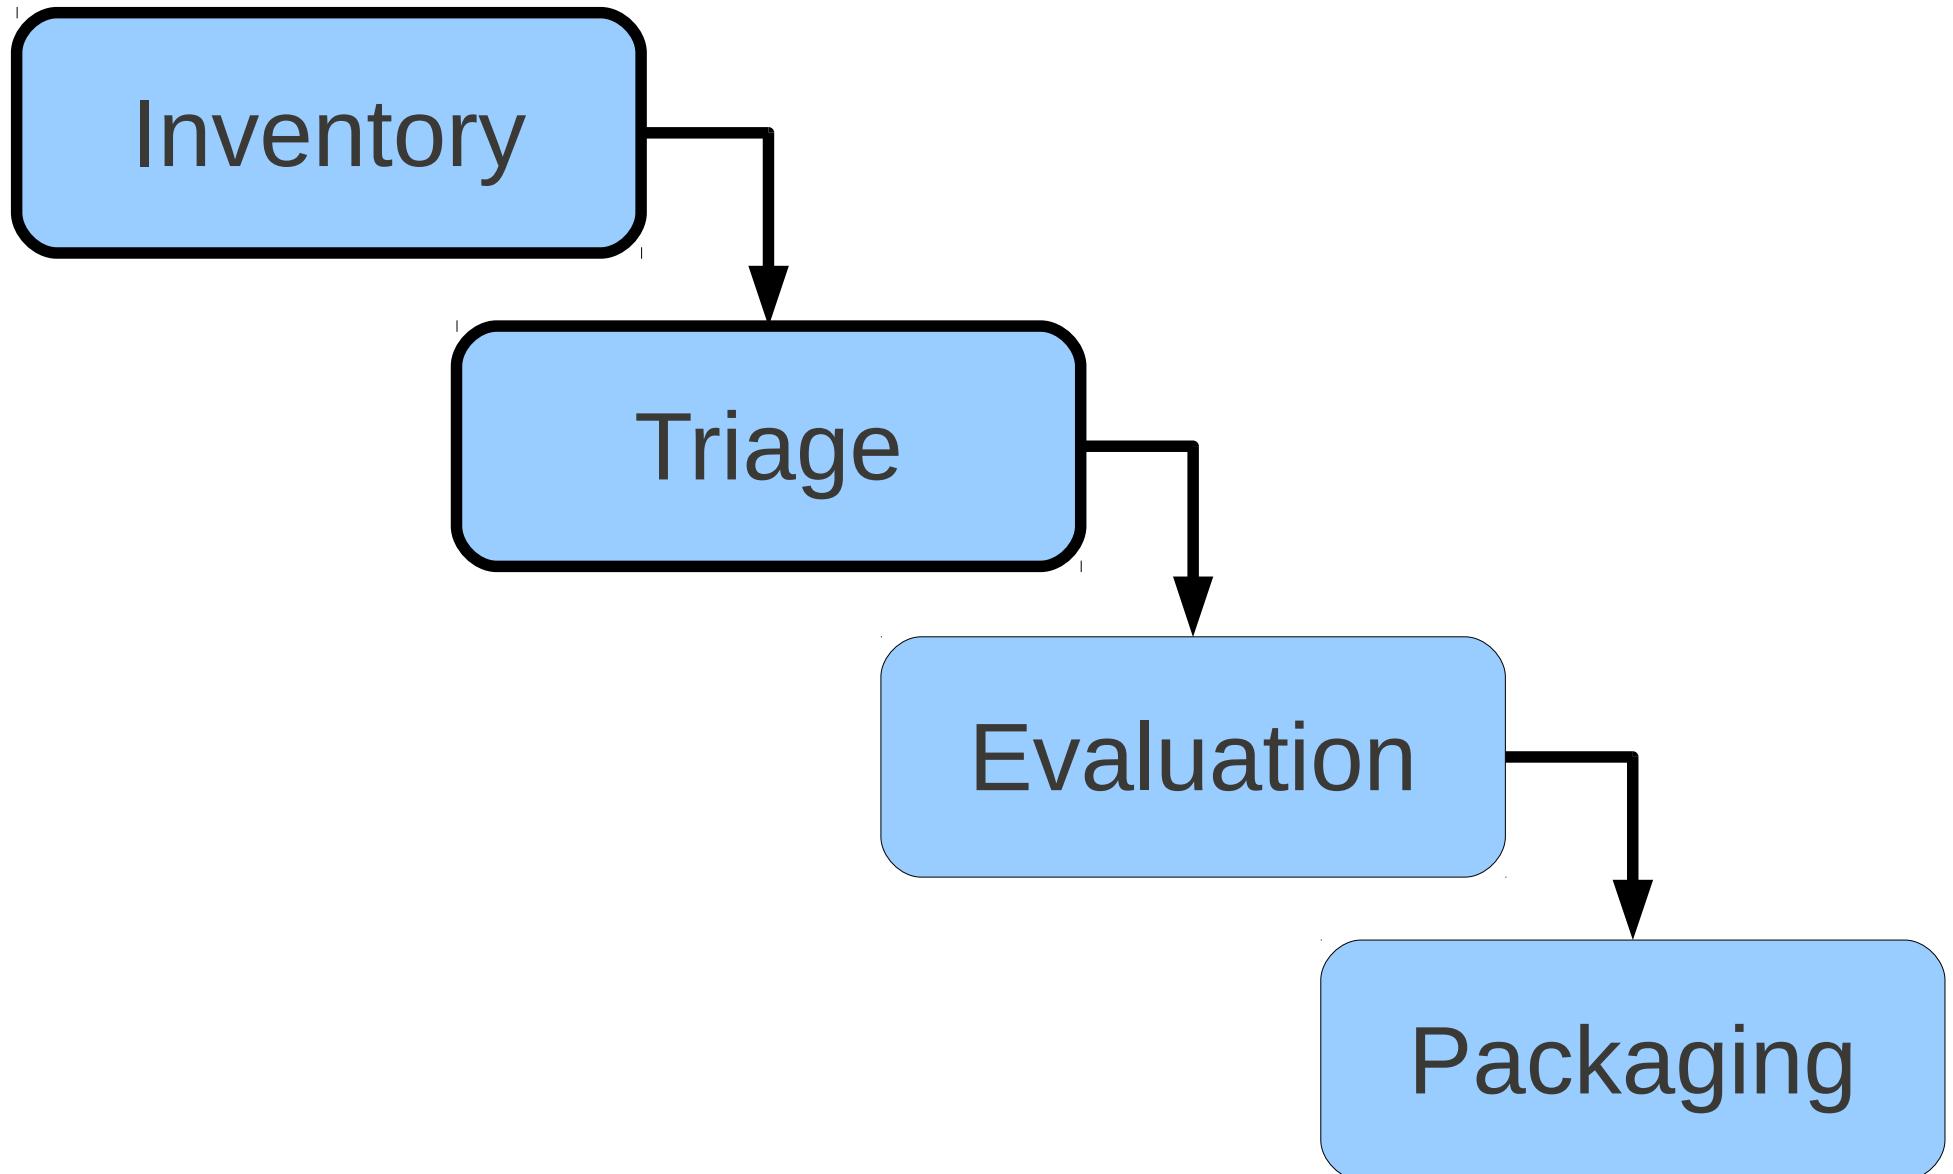

# Modularization Goals

- Growth Management
- Software Quality Improvement
- Facilitating Add-Ons
- Separate Third Party Libraries
- Optional Components

# Road-map Phases

# Road-map Phases

# Inventory

- **2331** Files (.h, .txx, .cxx)
  - 802 Common
  - 335 BasicFilters
  - 339 Algorithms
  - 374 Numerics
  - 153 IO
  - 110 SpatialObjects
  - 378 Review

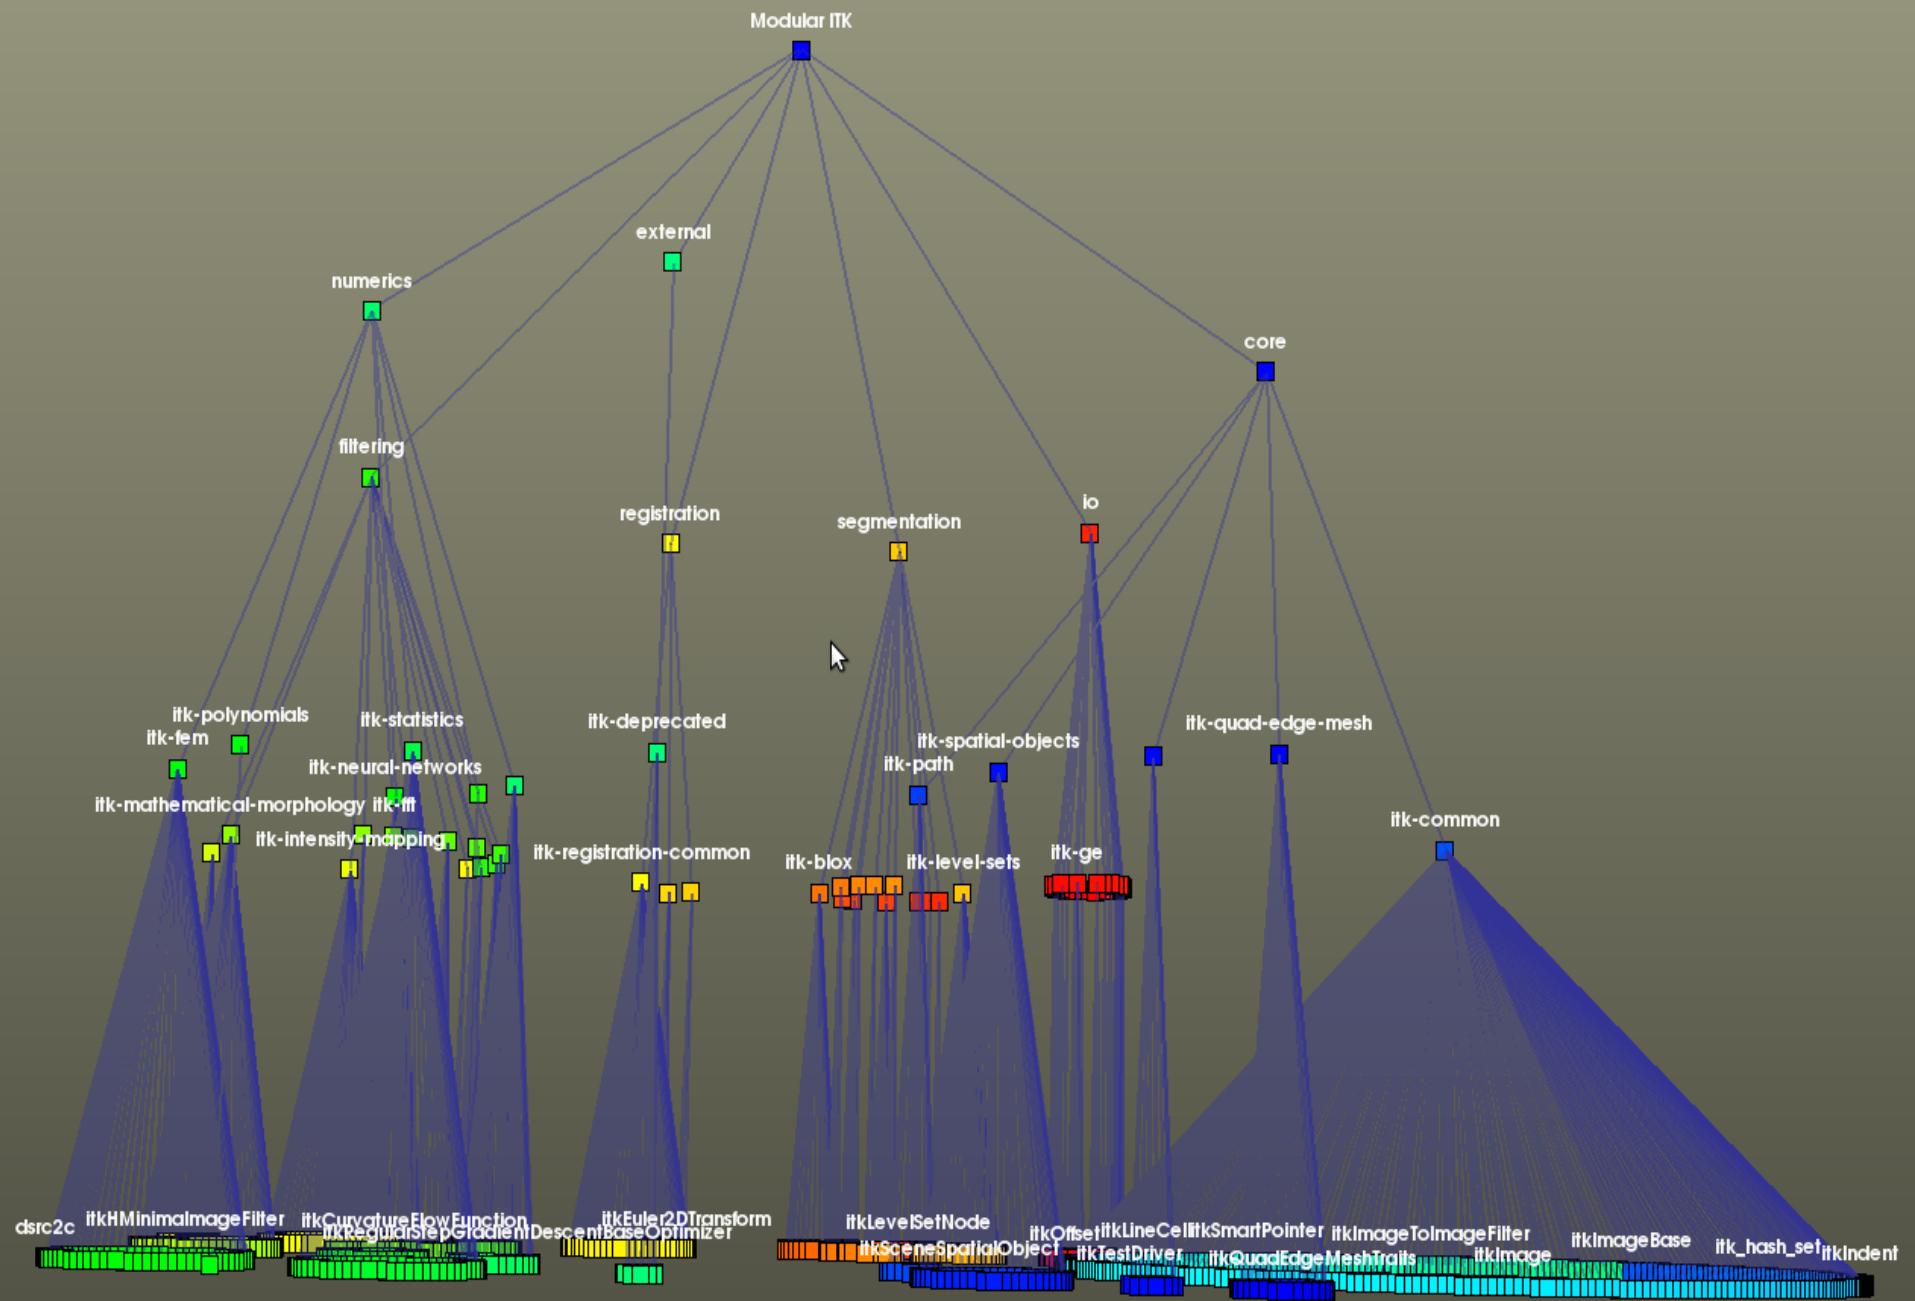

# Triage

- Fine Granularity
- Skeleton Hunting...

# Triage

## Major Groups

- Core
- Filtering
- Io
- Numerics
- Registration
- Segmentation
- External
- Bridge

# Core

- **itk-common**
- **itk-io-common**
- **itk-path**
- **itk-quad-edge-mesh**
- **itk-spatial-objects**

# Filtering (1)

- itk-anisotropic-smoothing
- itk-anti-alias
- itk-bias-correction
- itk-distance-map
- itk-edge-detection
- itk-fft

# Filtering (2)

- itk-gradient
- itk-image-statistics
- itk-intensity-mapping
- itk-mathematical-morphology
- itk-quad-edge-mesh-filtering
- itk-resampling
- itk-thresholding

# IO

- itk-analyze
- itk-biorad
- itk-bmp
- itk-gdcm
- itk-ge
- itk-gipl
- itk-io-deprecated
- itk-io-mesh
- itk-io-spatialobjects
- itk-io-transform
- itk-io-vtk
- itk-ipl
- itk-jpeg
- itk-lsm
- itk-meta
- itk-nifti
- itk-nrrd
- itk-png
- itk-siemens
- itk-stimulate
- itk-tiff
- itk-xml

# Numerics

- itk-eigen
- itk-fem
- itk-neural-networks
- itk-optimizers
- itk-polynomials
- itk-statistics

# Segmentation (1)

- itk-bio-cell
- itk-blox
- itk-classifiers
- itk-connected-components
- itk-deformable-mesh
- itk-label-voting

# Segmentation (2)

- itk-level-sets
- itk-markov-random-fields-classifiers
- itk-region-growing
- itk-region-growing-klm
- itk-voronoi
- itk-watersheds

# Registration

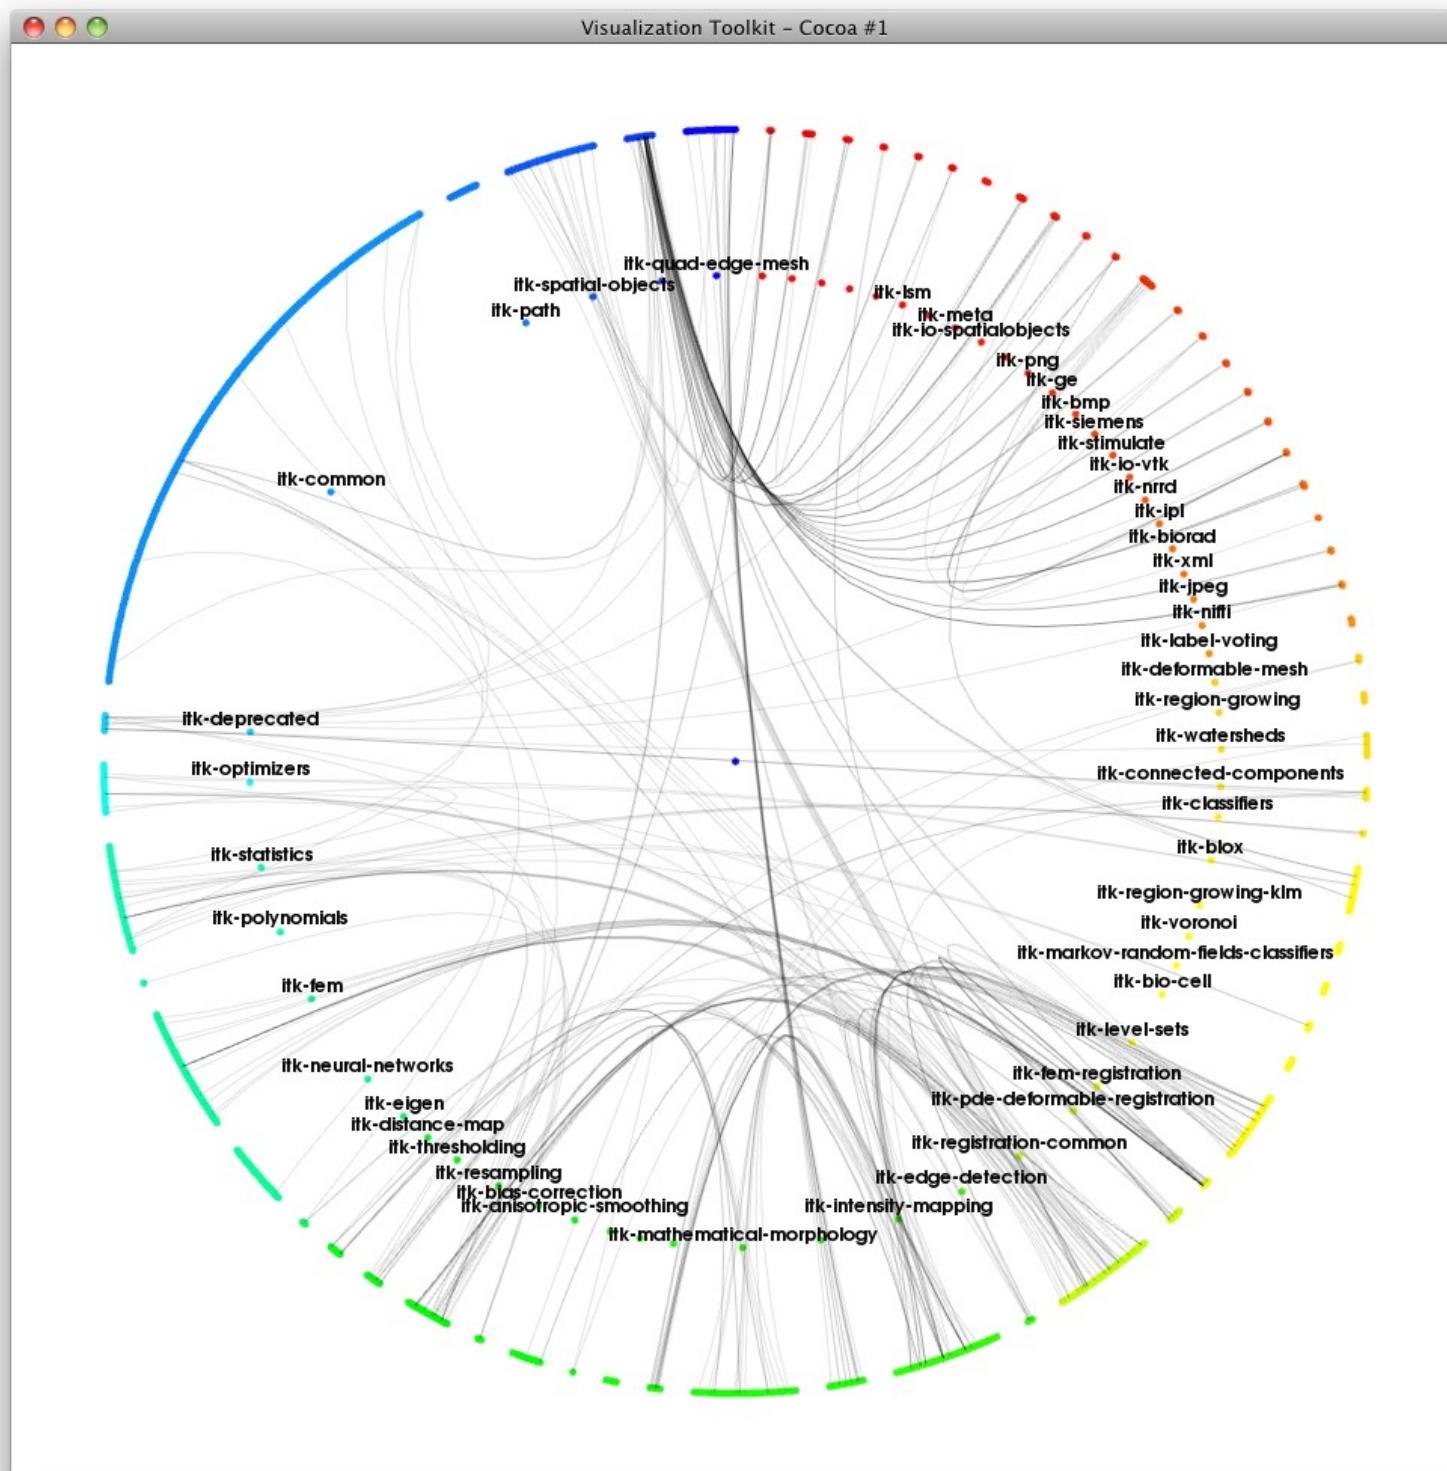

- itk-fem-registration
- itk-pde-deformable-registration
- itk-registration-common

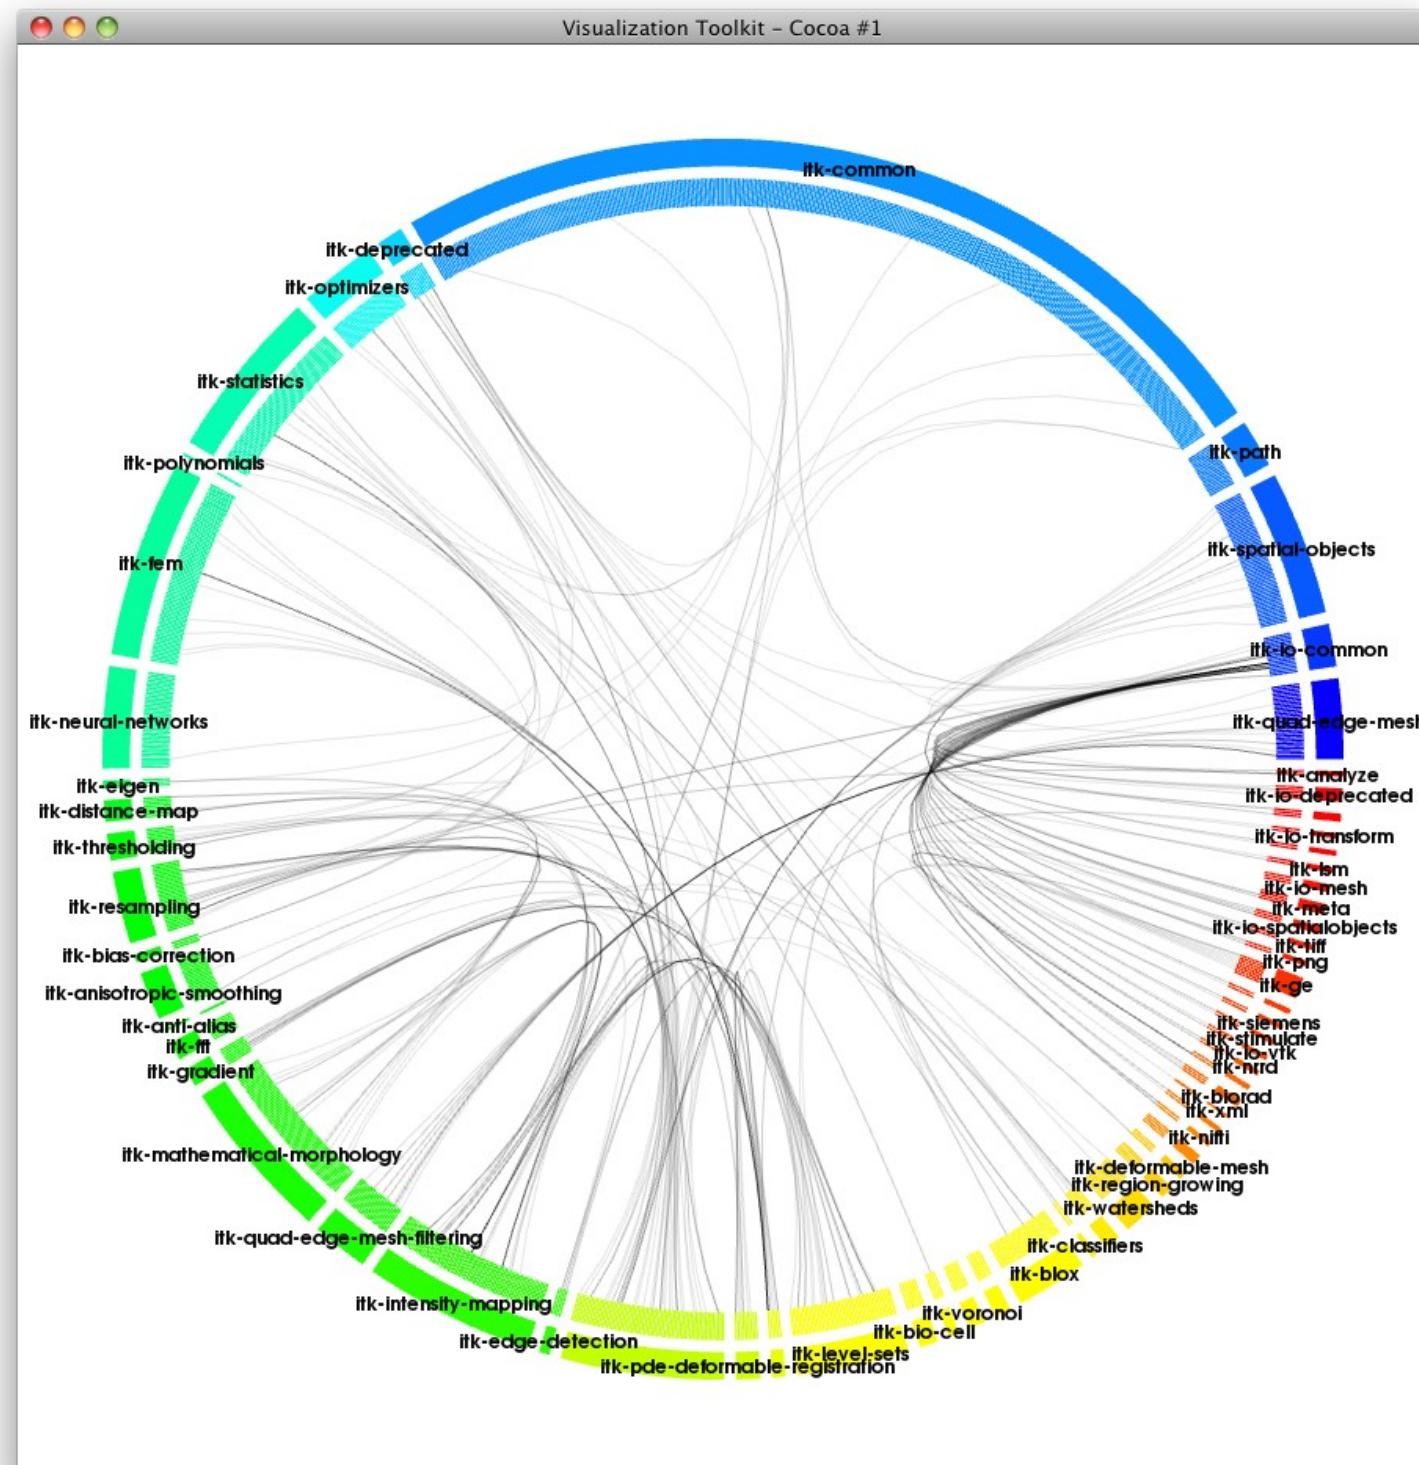

# Bridge

- itk-vtk
- itk-fltk
- itk-qt
- itk-opencv

# External

- itk-deprecated

# Dependency Cleaning

- Identify bogus #includes
- Segregate modules

# Quality Labeling

- Code Coverage per module
- Valgrind reports per module
- Labeling modules

End
